

Dear BMC Students,

This is a notification about the:

Required Chapters for the Biology SCTs

SCT 1. October 10.; 18:00 – 19:10: Chapters 3., 4., 5.

From Ch. 4. only the material about nucleic acids is required (pages 68 – 72).

About the prokaryotic cell structure only the material explained during the lectures is required.

SCT 2. October 30.; 18:00 – 19:10: Chapters 6, 8. and 9.

SCT 3. November 20.; 18:00 – 19:10: Chapters 11., 12. and 13.

SCT 4. December 12.; 18:00 – 19:10: Chapters 14., 15. (pages 323 – 336) and 16.

The pre-booked lecture halls for the groups will be announced later!

Since the lecture about Chapter 7. is given on the last week, it is not included in SCT 4. **But** Ch. 7. together with the chapters mentioned above will be required for the ESE and FE!

The material described in the chapters of the book (Life: The Science of Biology; 12th. ed.) is the core material of the course, we will ask questions only from the book in the exams. Any extra information mentioned in lectures– which was/were intended to aid the learning process, like extra figures which are not present in the book – will not be required for the tests, exams.

Best regards,

Andras Penyige
